Product Description

504R Signature baler highlights

- Robust performance with simplicity in mind
- Built with heavy-duty components
- Convenient routine maintenance

Operators can rest assured with a 3-year pickup coverage on internal components including parts* and labor.
*Does not include teeth or hardware for teeth.

Real-time moisture sensors come standard on the 504R Signature baler and provide moisture readings via the Atlas Pro™ control system, giving operators access to real-time moisture information in the tractor cab.

Built with few moving parts, the 60-in (150-cm) 4-bar camless wide pickup gets the job done and helps minimize parts cost when it's time for routine maintenance.
